DETAILED ACTION

1. Claims 1-20 are pending.

Response to Arguments

2. Applicant's arguments filed 19 August 2005 have been fully considered and they are persuasive.

Allowable Subject Matter

3. Claims **1-20** are allowed.
4. The following is an examiner's statement of reasons for allowance: The present invention is directed towards a data administration method for encrypting and distributing digital content. Each independent claim identifies the uniquely distinct features "**preparing a consent-information-added summary data section in which consent information containing information on a content key used as an encryption key in encrypting the digital content is embedded in the summary data section as a visually or auditorily unrecognizable electronic watermark and distributing the composite data**". The closest prior art Watanabe (US Pub No. 2002/0069359) discloses a digital contents generating apparatus for embedding electronic watermark data in digital contents, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious. The closest prior art Peinado et al. (US Patent No. 6,775,655) discloses a rendering application determines that digital content is in an encrypted rights-protected form and invokes a Digital Rights Management (DRM) system which includes a license store having at least one digital license stored therein, either singularly or in combination, fail to anticipate or render the

above underlined limitations obvious. The closest prior art Pfitzmann et al. (Asymmetric Fingerprinting) discloses a asymmetric fingerprinting system for restricting illegal copying of digital content, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

5. Therefore, **claims 1,3,10-13,15 and 17-19** and the respective **dependent claims 2,4-9,14,16, and 20** are in condition for allowance.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
